City Honors School, Buffalo Public School #195 Addition and Renovation Buffalo, New York

L F Engineering provided the structural design and analysis for the addition and renovation at City Honors School. The addition includes an Olympic sized swimming pool, gymnasium, natatorium and classroom space. Access between the existing school and addition is provided by a two-floor elevated bridge walkway.

L F Engineering worked closely with the entire design team throughout the design process and during construction. The project was completed in the fall of 2010 with a total cost of approximately 43 million dollars.
